I.

ACCEPTANCE OF AGREEMENT; PURPOSE OF TOKENS; CANCELLATION

Section 1.01 Acceptance of Agreement; Scope.

(a) This Agreement takes effect when the Company receives payment in full from Buyer for Buyer's purchase of the Tokens (the "**Effective Date**"). Buyer hereby agrees that by purchasing Tokens from us during the Token sale (the "**Token Sale**") period (the "**Token Sale Period**") you will be bound by the terms of this Agreement and all terms incorporated by reference. The terms of use (as may be amended from time to time, the "**Terms of Use**") located [MBYZ.IO](https://mbyz.io) (the "**Website**") are hereby incorporated by reference. The white paper (as may be amended from time to time, the "**White Paper**") and other materials concerning the Company's special purpose decentralized data exchange protocol (the "**Protocol**") intended to incentivize the exchange of shareable data, including, without limitation, professional data such as verified work experience, reviews and social connections and the sale of Tokens, available at [MBYZ.io](https://mbyz.io) are hereby incorporated by reference.

(b) Unless otherwise stated herein, this Agreement governs only your purchase of Tokens from the Company during the Token Sale Period. Any use of Tokens in connection with providing or receiving Services via the Protocol will be governed primarily by other applicable terms and policies, which currently include the Terms of Use and privacy policy (as may be amended from time to time, the "**Privacy Policy**"), located [here](#) (collectively, the "**Protocol Terms and Policies**"). The Company may add new terms or policies to the Protocol Terms and Policies in its sole discretion, and may update each of the Protocol Terms and Policies from time to time according to the modification procedures set forth therein. You have read and understand this Agreement as well as the Protocol Terms and Policies, the

Risk Disclosures provided on **Exhibit A**, and the White Paper and will regularly check for updates to these documents [here](#) or other channels we make available, and will read any updates.

(c) BUYER AGREES AND CERTIFIES THAT BUYER IS PURCHASING TOKENS DURING THE TOKEN SALE PERIOD FOR BUYER'S OWN PERSONAL USE AND UTILITY, AND TO MAKE USE OF THE PROTOCOL AND NOT FOR INVESTMENT, OR FINANCIAL PURPOSES. BUYER AGREES AND CERTIFIES THAT TOKENS ARE NOT A SECURITY OR A CRYPTOCURRENCY AND ACKNOWLEDGE THAT TOKENS MAY LOSE ALL VALUE. Tokens are a cryptographic token to be used via the Protocol. Buyer acknowledges and understands that: (i) the sale of Tokens and the Tokens themselves are not investments, currencies, securities, commodities, swaps on a currency, security or commodity or a financial asset or instrument of any kind, (ii) purchases and sales of Tokens are not subject to the protections of any laws governing those types of financial instruments, and (iii) this Agreement and all other documents referred to in this Agreement, including the White Paper, do not constitute a prospectus or offering document, and are not an offer to sell, nor the solicitation of an offer to buy an investment, a currency, a security, commodity, or a swap on either a security or commodity or a financial asset or instrument of any kind. By entering into this Agreement, you affirm that you understand any and all concepts described in the documents to your satisfaction and affirm that you also agree to the Protocol Terms and Policies.

(d) . To the extent of any conflict with this Agreement, the Protocol Terms and Policies shall control with respect to any issues relating to the use of Tokens in connection with providing or receiving Services via the Protocol.

Section 1.02 . Purpose and Use of Tokens.

(a) The purpose of the Tokens is to incentivize users and applications to exchange work experience, reviews and professional connections or other types of sharable data through the Protocol. Tokens are used to execute Ethereum smart contracts and to purchase or exchange data with users and other applications via the Protocol, the use of Tokens is required for an application to pull user data from the Protocol and Tokens are rewarded when applications push data to the Protocol and that data is accepted by other applications using the Protocol (the “**Services**”).

(b) . The Tokens do not confer any rights other than rights relating to the provision and receipt of Services via the Protocol, subject to limitations and conditions in

MBYZ CORPORATION LTD

applicable Protocol Terms and Policies. In particular, Buyer understands and accepts that Tokens do not represent or confer any ownership right or stake, share, security, or equivalent rights, or any right to receive future revenue shares, intellectual property rights or any other form of participation in or relating to the Protocol and/or the Company and its corporate affiliates, other than the ability to use the Tokens in connection with the Services via the Protocol, subject to this Agreement. The Tokens are not intended to be a digital currency, security, commodity or any other kind of financial instrument.

Section 1.03 . Cancellation

Buyer's purchase of Tokens from the Company during the Token Sale Period is final, and there are no refunds or cancellations except as may be required by applicable law or regulation. The Company reserves the right to refuse or cancel Token purchase requests at any time in its sole discretion.

Section 1.04 Possible Migration of Tokens.

(a) The Company reserves the right to migrate the Tokens (the "**Pre-existing Tokens**") from the Ethereum protocol to a future protocol that may or may not currently exist, for any reason. Further, we may generate new Tokens on the future protocol and make them available to the holders of Pre-existing Tokens (the "**Replacement Tokens**") should we determine, in our sole discretion, that doing so is necessary or useful to the operation of the Protocol.

(b) . Should the Company decide to migrate the Tokens, we may no longer provide support for the Pre-existing Tokens relating to the Protocol, the Services, or any other operational matters, except with respect to the migration process. Although the Company does not at this time anticipate that it will require any Pre-existing Token holders to convert their Pre-existing Tokens to Replacement Tokens, the Company anticipates there will be significant incentives for Pre-existing Token holders to do so, since the practical utility of Pre-existing Tokens will likely diminish rapidly once the Replacement Tokens are created and in use by a significant portion of Protocol users. Accordingly, by entering into this Agreement, you acknowledge and agree that in order for you to continue to make use of the Protocol or obtain utility from the Tokens, you may need to convert the Tokens you purchase during the Token Sale Period to Replacement Tokens in the future.

MBYZ CORPORATION LTD

(c) Should the Company decide to migrate the Tokens, we will notify you via the e-mail address in your account with the Company. You are solely responsible for updating your account with the Company should your contact information change.

Article II. TOKEN DISTRIBUTION

Section 2.01 Allocation and Distribution of Tokens.

The Company shall allocate and distribute the Tokens (the “**Token Distribution**”) to buyers thereof in a manner consistent with the procedures and other instructions provided by the Company on the Website or to Buyer via e-mail, in each case, from time to time. Buyer shall follow the procedures set forth by the Company on the Website for purchasing Tokens. As a condition precedent to any sale by the Company of any Tokens, Buyer must have a wallet or other storage mechanism (“**Wallet**”) that supports the ERC20 token standard in order to receive any Tokens you purchase from the Company and Buyer must provide an accurate digital wallet address to the Company (the “**Token Receipt Address**”). The Company reserves the right to prescribe additional guidance regarding specific requirements with respect to a storage mechanism for the Tokens. We are not responsible for any delays, losses, costs, non-delivery of refunds or of Tokens, or other issues arising from your failing to provide a Token Receipt Address, or providing an inaccurate or incomplete Token Receipt Address. You acknowledge and understand the procedures set forth on the Website for purchasing Tokens, and that failure to use the Website and follow such procedures will result in your failure to receive Tokens and you will lose some or all of the amounts paid for the Tokens.

Section 2.02 Allocation and Sale of Tokens to Company Affiliates.

Buyer hereby consents to the participation of the Company’s and its affiliates’ and predecessors’ past, present and future employees, officers, directors, contractors, advisors, consultants, equityholders, suppliers, vendors and service providers in the purchase of Tokens, including people who may work on the development and implementation of the Protocol or who may work for the Company’s future businesses that the Company may establish with a portion of the proceeds from the Token Distribution.

Section 2.03 Sources and Uses of Funds.

(a) Buyer shall not use the Tokens to finance, engage in, or otherwise support any unlawful activities.

Article III. NO OTHER RIGHTS CREATED

Section 3.01 No Claim, Loan or Ownership Interest.

In the event that Buyer is no longer in possession of Buyer's private keys or any device associated with Buyer's account or is not able to provide Buyer's login or identifying credentials, Buyer acknowledges and understands that it may lose all of its Tokens or access to its account. In such event, the Company shall be under no obligation to recover any Tokens and Buyer acknowledges, understands and agrees that all purchases of Tokens are non-refundable and Buyer shall not receive money or other compensation for any Tokens purchased.

(b) Upon the Company's request, Buyer shall immediately provide to the Company any information and documents that the Company, in its sole discretion, deems necessary or appropriate to comply with any laws, regulations, rules or agreements, including without limitation, judicial process. Such documents include, but are not limited to, passports, driver's licenses, utility bills, photographs of associated individuals, government identification cards or sworn statements. Buyer hereby consents to the Company disclosing any such information and documents in order to comply with applicable laws, regulations, rules or agreements. (a) Binding Arbitration. Except for any disputes, claims, suits, actions, causes of action, demands or proceedings (collectively, “**Disputes**”) in which either Party seeks to bring an individual action in small claims court or seeks injunctive or other equitable relief for the alleged unlawful use of intellectual property, including, without limitation, copyrights, trademarks, trade names, logos, trade secrets or patent, Buyer and the Company (i) waive your and the Company’s respective rights to have any and all Disputes arising from or related to this Agreement resolved in a court and (ii) waive your and the Company’s respective rights to a jury trial. Instead, you and the Company will arbitrate Disputes through binding arbitration (which is the referral of a Dispute to one or more persons charged with reviewing the Dispute and making a final and binding determination to resolve it instead of having the Dispute decided by a judge or jury in court).

(b) No Class Arbitrations, Class Actions or Representative Actions. Any Dispute arising out of or related to this Agreement is personal to you and the Company, will be resolved solely through individual arbitration and will not be brought as a class arbitration, class action or any other type of representative proceeding. There will be no class arbitration or arbitration in which an individual attempts to resolve a Dispute as a representative of another individual or group of individuals. Further, a Dispute cannot be brought as a class or other type of representative action, whether within or outside of arbitration, or on behalf of any other individual or group of individuals.

(c) Federal Arbitration Act. This Agreement affects interstate commerce and the enforceability of this Section 10.01 will be both substantively and procedurally governed by and construed and enforced in accordance with the Federal Arbitration Act, 9 U.S.C. § 1 et seq. (the “**FAA**”), to the maximum extent permitted by applicable law.

(d) Notice; Informal Dispute Resolution. Each Party will notify the other Party in writing of any Dispute within thirty (30) days of the date it arises, so that the Parties can attempt in good faith to resolve the Dispute informally. Notice to the Company shall be sent by e-mail to the Company at support@mbyz.io. Notice to Buyer shall be by e-mail to the then-current e-mail address in your account with the Company. Buyer’s notice to the Company must include (i) your name, postal address, e-mail address and telephone number, (ii) a description in reasonable detail of the nature or basis of the Dispute, and (iii) the specific relief that you are seeking. If Buyer and the Company cannot agree how to resolve the Dispute within thirty (30) days after the date notice is received by the applicable Party, then either Buyer or the Company may, as appropriate and in accordance with this Section 10.01,

MBYZ CORPORATION LTD

commence an arbitration proceeding or, to the extent specifically provided for in Section 10.01(a), file a claim in court.

(e) Any arbitration will occur in San Francisco, California. Arbitration will be conducted by a single arbitrator in accordance with the rules of the Judicial Arbitration and Mediation Services (“**JAMS**”), which are hereby incorporated by reference. The state and federal courts located in San Francisco County, California will have exclusive jurisdiction over any appeals and the enforcement of an arbitration award. You may also litigate a Dispute in the small claims court located in the county where you reside if the Dispute meets the requirements to be heard in small claims court.

(f) Authority of Arbitrator. As limited by the FAA, this Agreement and the applicable JAMS rules, the arbitrator will have (i) the exclusive authority and jurisdiction to make all procedural and substantive decisions regarding a Dispute, including the determination of whether a Dispute is arbitrable and (ii) the authority to grant any remedy that would otherwise be available in court; provided, however, that the arbitrator does not have the authority to conduct a class arbitration or a representative action, which is prohibited by this Agreement. The arbitrator may only conduct an individual arbitration and may not consolidate more than one individual’s claims, preside over any type of class or representative proceeding or preside over any proceeding involving more than one individual.

(g) Rules of JAMS. The rules of JAMS and additional information about JAMS are available on the JAMS website. By entering into this Agreement, you either (i) acknowledge that you have read and understand the rules of JAMS, or (ii) waive your opportunity to read the rules of JAMS and any claim that the rules of JAMS are unfair or should not apply for any reason.

(h) Severability of Dispute Resolution and Arbitration Provisions. If any term, clause or provision of this Section 10.01 is held invalid or unenforceable, it will be so held to the minimum extent required by law, and all other terms, clauses and provisions of this Section 10.01 will remain valid and enforceable. Further, the waivers set forth in Section 10.01(b) are severable from the other provisions of this Agreement and will remain valid and enforceable, except as prohibited by applicable law.

Section 11.05 No Waivers.

The failure by the Company to exercise or enforce any right or provision of this Agreement shall not constitute a present or future waiver of such right or provision, nor limit the Company's right to enforce such right or provision at a later time. All waivers by the Company must be unequivocal and in writing to be effective.

Section 11.06 No Partnership; No Agency; No Third Party Beneficiaries.

EXHIBIT A

RISK DISCLOSURES

- 1. Risk of Losing Access to Tokens Due to Loss of Credentials:** Buyer's Tokens will be distributed directly by the Company to Buyer's Wallet at the Token Receiving Address. The Buyer's Wallet can only be accessed with login credentials selected by Buyer. The loss of Buyer's Wallet login credentials will result in the loss of Tokens. Best practices dictate that Buyers safely store credentials in one or more backup locations geographically separated from the working location.
- 2. Risks Associated with the Ethereum Protocol:** The Tokens and the Protocol are based on the Ethereum protocol. As such, any malfunction, unintended function, unexpected functioning of or attack on the Ethereum protocol may cause the Protocol or the Tokens to malfunction or function in an unexpected or unintended manner. ETH, the native unit of account of the Ethereum protocol, may itself lose value in ways similar to the Tokens, and also other ways.
- 3. Risks Associated with Buyer Credentials:** Any third party that gains access to or learns of Buyer's login credentials or private keys with respect to Buyer's Wallet may be able to dispose of Buyer's Tokens. To minimize this risk, Buyer should guard against unauthorized access to their electronic devices. Best practices dictate that you safely store private keys in one or more backup locations geographically separated from the working location. In addition, you are responsible for giving us the correct Token Receipt Address to send you your Tokens. If you give us the incorrect Token Receipt Address to send your Tokens to, we are not responsible for any loss of Tokens that may occur.
- 4. Risk of Unfavorable Regulatory Action in One or More Jurisdictions:** Blockchain technologies and token sales have been the subject of scrutiny by various regulatory bodies around the world. The functioning of the Protocol and the Tokens could be impacted by one or more regulatory inquiries or actions, including the licensing of or restrictions on the use, sale or possession of digital tokens like MBYZ, which could impede, limit or end the improvement of the Protocol and increase legal costs.

5. Risk of Alternative, Unofficial Protocol: Following the Token Sale and the initial version of the Protocol, it is possible that alternative networks could be established that attempt to facilitate services that are materially similar to the Protocol's Services. The official Protocol may compete with these alternative networks, which could potentially negatively impact the Protocol and MBYZ, including the utility of the Tokens for obtaining Services.

6. Risk of Insufficient Interest in the Protocol: It is possible that the Protocol will not be used by a large number of businesses, individuals and other organizations and that there will be limited public interest in the creation and development of the MBYZ ecosystem. Such a lack of interest could negatively impact MBYZ and the Protocol.

7. Risk that the Protocol, as Developed, Will Not Meet the Expectations of the Company or Buyer: The Protocol may undergo significant changes before and after its release. Moreover, we have no control over how other participants will use the Protocol, what products or services will be offered via the Protocol by third parties, or how third-party products and services will utilize the Tokens (if at all). This could create the risk that Tokens or the Protocol, as further developed and maintained, may not meet your expectations at the time of purchase, for any number of reasons including mistaken assumptions or analysis, a change in the design and implementation plans, and execution of the Protocol. Furthermore, despite our good faith efforts to develop, complete, and use the Protocol, it is still possible that the Protocol will experience malfunctions or otherwise fail to be adequately developed or maintained, which may negatively impact the Protocol and Tokens, and your Tokens may become useless due to technical, commercial, regulatory or any other reasons.

8. Risk of Unfavorable Fluctuation of ETH and Other Currency Value: The Company team intends to use the proceeds from selling MBYZ to fund the maintenance and continued improvement of the Protocol, as described further in the White Paper. The proceeds of the Token Sale will be collected in both cryptographic and fiat currencies. If the value of the cryptographic or fiat currencies fluctuates unfavorably during or after the Token Sale Period, the Company team may not be able to fund continued improvements, or may not be able to maintain the Protocol, in the manner that it intended.

9. Risks from Taxation: The tax characterization of MBYZ is uncertain. You must seek your own tax advice in connection with purchasing MBYZ, which may result

MBYZ CORPORATION LTD

info@mbyz.io

in adverse tax consequences to you, including withholding taxes, income taxes and tax reporting requirements.

10. Risk of Theft and Hacking: Hackers or other groups or organizations or countries may attempt to interfere with the Protocol or the availability of MBYZ in any number of ways, including service attacks, Sybil attacks, spoofing, smurfing malware attacks or consensus based attacks, or phishing, or other novel methods that may or may not be known to steal Tokens.

11. Risk of Inability to Satisfy Data Protection, Security, Privacy and Other Government- and Industry-Specific Requirements: There are a number of data protection, security, privacy and other government- and industry-specific requirements, including those that require companies to notify individuals of data security incidents involving certain types of personal data. Security compromises could harm the Protocol's reputation, erode user confidence in the effectiveness of its security measures, negatively impact its ability to attract new users, or cause existing users to stop using the Protocol.

12. Risk of Weaknesses or Exploitable Breakthroughs in the Field of Cryptography: Advances in cryptography, or technical advances such as the development of quantum computers, could present risks to cryptocurrencies and the Protocol, which could result in the theft or loss of MBYZ.

13. Risk of MBYZ Mining Attacks: As with other decentralized cryptographic tokens and cryptocurrencies, the blockchain used for the Protocol is susceptible to mining attacks, including double-spend attacks, majority mining power attacks, selfish-mining attacks and race condition attacks. Any successful attacks present a risk to the Protocol, MBYZ and expected proper execution and sequencing of Ethereum contract computations. Despite the efforts of the Company's team, the risk of known or novel mining attacks exists.

14. Risk of Lack of Adoption or Use of the Protocol: While MBYZ should not be viewed as an investment, it may have value over time. That value may be limited or non-existent if the Protocol lacks use and adoption. If this becomes the case, there may be few or no markets following the launch of the platform, potentially having an adverse impact on MBYZ.

15. Risk of an Illiquid Market for MBYZ: MBYZ is for use with the Protocol, and is not refundable. The Company is not aware of any marketplace for MBYZ, and there may never be any such marketplace for MBYZ. There are currently no

MBYZ CORPORATION LTD

exchanges upon which MBYZ would trade. If ever exchanges do develop, they will likely be relatively new and subject to poorly understood regulatory oversight. They may therefore be more exposed to fraud and failure than established, regulated exchanges for other products and have a negative impact on MBYZ.

16. Risk of Uninsured Losses: Unlike bank accounts or accounts at some other financial institutions, funds held using the Protocol or Ethereum network are generally uninsured. In the event of any loss, there is no public insurer, such as the FDIC, or private insurer to offer recourse to the purchaser.

17. Risk of Dissolution of the Company: It is possible that, due to any number of reasons, including an unfavorable fluctuation in the value of cryptocurrencies, development issues with the Protocol, the failure of business relationships or competing intellectual property claims, the Company may no longer be viable as a business or otherwise and may dissolve.

18. Risk of Malfunction in the Protocol: It is possible that the Protocol malfunctions in an unfavorable way, including one that results in the loss of MBYZ.

19. Risks Arising from Lack of Governance Rights: Because Tokens confer no governance rights of any kind with respect to the Protocol or the Company, all decisions involving the Company's products or Services via the Protocol or the Company itself will be made by the Company at its sole discretion, including, but not limited to, decisions to discontinue its products or Services via the Protocol, to create and sell more Tokens for use via the Protocol, or to sell or liquidate the Company. These decisions could adversely affect the Protocol and the utility of any Tokens you own, including their utility for obtaining Services.

20. Unanticipated Risks: Cryptographic tokens are a new and untested technology. In addition to the risks discussed in the White Paper and this Agreement, there are risks that the Company's team cannot anticipate. Further risks may materialize as unanticipated combinations or variations of the discussed risks or the emergence of new risks.
